

**VERIFICATION OPINION DECLARATION  
GREENHOUSE GAS EMISSIONS**

Apex Companies, LLC (Apex) was engaged to conduct an independent verification of the greenhouse gas (GHG) emissions reported by General Mills Inc. (General Mills) for the period stated below. This verification opinion declaration applies to the related information included within the scope of work described below.

Total GHG emissions were verified according to the reporting and verification standards noted below. The determination of the GHG emissions is the sole responsibility of General Mills. General Mills is responsible for the preparation and fair presentation of the GHG statement in accordance with the criteria. Apex’s sole responsibility was to provide independent verification on the accuracy of the GHG emissions reported, and on the underlying systems and processes used to collect, analyze and review the information. Apex is responsible for expressing an opinion on the GHG statement based on the verification. Verification activities applied in a limited level of assurance verification are less extensive in nature, timing and extent than in a reasonable level of assurance verification.

- Review of General Mills data, information systems, and methodology for collection, aggregation, analysis, and review of information used to determine GHG emissions during site visits to General Mills Buffalo Cereal Plant, General Mills Buffalo Flour Plant and General Mills Cincinnati Plant; and

- Audit of sample of data used by General Mills to determine GHG emissions.

**Verification Opinion:**

Based on the process and procedures conducted, there is no evidence that the GHG emissions opinion declaration shown above:
